## We'll tailor the Oracle Cloud to your Business

*We'll help your business chose, migrate to, and maintain optimal Cloud computing on the ultimate Cloud platform: Oracle's.*

Service  
Brief

### We are dedicated to helping you get the best out of your Cloud investment

If you are now approaching a major hardware/software update milestone, looking for ways to extend your data center without a major investment, or identified a set of applications you want move to the Cloud, we can provide a safe and effective move to the highest-performance Cloud on the market – The Oracle Cloud.

We're a consulting firm specialized in Oracle technology for over 15 years. We've executed small and large-scale Cloud migration and custom application development projects all over the world, consistently providing our customers with technologically and administratively seamless Cloud migrations, on time and on budget.

## Our Experts Will Guide You in Your Migration to the Oracle Cloud

As Oracle Cloud experts, we can quickly get down to the essentials, helping you navigate the myriad of Cloud options Oracle offers. We can ensure moving your applications or infrastructure to the Oracle Cloud is well-ordered, painless and always according to best practices. Once the move is done, we can continuously monitor and review the performance to ensure optimization of your Cloud environment, allowing you to fully benefit from this rapidly evolving technology. We'll:

- Identify the IT costs you can reduce
- Carefully choose the technology that gives you fastest time-to-market and provisioning
- Put you in a clear position to improve your business' scalability and agility

**Here's how we do it:**

### Audit and Advise

We'll analyse the workloads in your current IT environment and identify those suitable for migration. We'll propose optimizations that reinforce your overall IT strategy and business objectives. Then, we'll make recommendations including a Cloud migration roadmap tailored precisely to your needs.

### Execute and Coach

Working with your IT team, we'll plan and execute your migration, ensuring the integrity of your entire system, every step of the way. As we put great emphasis on knowledge transfer, we'll make sure your team ends up being fully capable of administering its new on-premise/ Cloud infrastructure

## Maintain and Evolve

Once your Cloud space is up and running, we'll keep it optimal and efficient! Our support team's expertise and ongoing contact with Oracle Cloud product management enables us to keep abreast of developments as they happen. This means we can propose new features and evaluate new Oracle Cloud functionalities, often before they are released. We'll continually ensure your costs stay as low as possible while maintaining the highest possible performance.

### Insum - Oracle Cloud Specialists

We are Oracle Cloud specialist, with Oracle OCI certified experts on staff. We've developed a methodical, proven approach to implementing Cloud migrations and Cloud maintenance, so you can get the most out of your investments. We look forward to hearing from you!
